 540-364-6292

Person completing this form: _____ Phone Number: _____

PLEASE NUMBER TREES SEQUENTIALLY IN THE ORDER YOU ENCOUNTER THEM

Direction of travel: S to N or N to S

Tree #	Segment ID & Sub-section	Circ. in.*	GPS Location (if known)						**Est. height	Side of Trail		Ft from trail	Flowers present?	Burs present on branches?	Burs present on ground?	Obvious signs of chestnut blight?	Multiple shoots from a single root system?	# Addl Shoots
			Latitude N:			Longitude W:												
			Deg	Min	Sec	Deg	Min	Sec		R	L							
1										R	L							
2										R	L							
3										R	L							
4										R	L							
5										R	L							

*Circumference at breast height (inches). Measure at 4.5 feet, above the ground. For multiple shoots from single root system, measure largest living trunk. Living means that it has at least one branch with green leaves.

** Estimated tree height (in feet)

Other tree location information: Use tree number to note additional information on back of page
