

**CHESTNUT CHAT SERIES: CHAT ROOM**  
**CHAT 11: RESTORATION OF AMERICAN CHESTNUT TO FOREST LANDS**  
**DATE: FRIDAY, AUGUST 7, 2020**

<b>ORIGINATOR</b>	<b>QUESTION / COMMENT</b>
Sara Fitzsimmons:	<a href="https://www.srs.fs.usda.gov/women-in-science/stacy-clark/">https://www.srs.fs.usda.gov/women-in-science/stacy-clark/</a>
Sara Fitzsimmons:	<a href="https://www.srs.fs.usda.gov/staff/stacyclark">https://www.srs.fs.usda.gov/staff/stacyclark</a>
Cherin:	All links and materials can be found here as well. :) <a href="https://www.acf.org/resources/chestnut-chat-series/">https://www.acf.org/resources/chestnut-chat-series/</a>
Scott Laseter:	As a non-scientific drought data point, a small ridgetop planting in middle Georgia survived an intense summer drought in 2019.
mthomasvangundy:	plus for all FS research - freely available at <a href="https://www.fs.usda.gov/treesearch/">https://www.fs.usda.gov/treesearch/</a>
