**PURPOSE:** Thank you for submitting a sample for identification. This form provides critical information for TACF to record, map, and analyze American chestnut across their native range. We appreciate your interest and participation!

**SAMPLE INSTRUCTIONS:**
- Collect 6-12” of twig and mature leaves growing in full sun.
- Press sample flat between sheets of cardboard.
- Use a single paper towel between the sample and cardboard to cushion and absorb moisture.
- Mail pressed sample and this form in a large envelope.
- Do not wrap in plastic, as samples will mold in the mail.
- Do not ship overnight. This is not necessary as we cannot ID your sample right away.

**RESULT:** An analysis of the macro and microscopic characteristics of the leaf and twig sample will be completed by a TACF identification expert. Results will be sent to the submitter in 4-8 weeks.

Use TreeSnap to document tree location [TreeSnap.org](https://www.treesnap.org)

**TREE LOCATOR FORM**

**Location**

<table>
<thead>
<tr>
<th>Street Address:</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>City/Town:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>County:</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Latitude (N)</th>
<th>Longitude (W)</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Preferred format = decimal degrees (DD.DDDD , -DD.DDDD)

**TreeSnap ID (optional):**

Location information is crucial. The closer you can get us to a tree with your directions, the better. Lat/Long measurements are best.

- You may obtain location information from Google Maps [maps.google.com](https://maps.google.com)
- Right click location and lat/long appears at top in decimal degrees
- If you can’t obtain Lat/Long measurements, then please attach a map and/or directions to the tree from the nearest road.

WHERE TO SEND SAMPLES

Kendra Collins
Director of Regional Programs, New England Science Coordinator
University of Vermont
George D. Aiken Forestry Sciences Laboratory
USFS Northern Research Station
705 Spear Street
South Burlington, VT 05403

Stephen Hoy
North Central Regional Science Coordinator
Pennsylvania State University
108 Modular Research A
University Park, PA 16802

Samples from KY, VA, WV:
Cassie Stark
Mid-Atlantic Regional Science Coordinator
Virginia Department of Forestry Central Office
900 Natural Resources Drive, Suite 800
Charlottesville, VA 22903

Samples from MD:
Gary P. Carver
Volunteer ID Specialist
3501 Big Wood Road
Ijamsville, MD 21754-9412

Samples from AL, NC, SC, TN:
Jamie Van Clief
Southern Regional Science Coordinator
50 N. Merrimon Avenue, Suite 115
Asheville, NC 28806

Samples from GA:
Marty Cipollini
Volunteer ID Specialist
Berry College, Dept. of Biology
2277 Martha Berry Highway
Mount Berry, GA 30149
